

LOCLEAN HYDRO A^{70%}

READY-TO-USE HYDROALCOHOLIC DISINFECTANT
WITHOUT RINSING
IN ACCORDANCE WITH EN 14476

Presentation

Bactericidal, fungicidal and virucidal* disinfectant spray which can be used without rinsing, even on surfaces in contact with food (in accordance with the decree of september 8, 1999).

*effective on coronavirus (BCov-1) and Sars-CoV-2 according to standard EN 14476.

Composition

Ethanol (N° CAS 64-17-5) : 70% (m/m)

LOCLEAN HYDRO A^{70%} is formulated with raw materials and exclusively vegetable substrates, and coming only from the European Union. Ethanol comes from the fermentation or distillation of sugar beet.

Strengths

- Does not require rinsing, even on surfaces in contact with food.
- Do not leave a trace.
- Can be used in organic farming according to EC regulations n° 834/2007 and 889/2008 for cleaning and disinfection in the food and processing industries.

Use

Ready to use disinfectant for use on worktops, door handles, computer keyboards, fittings, telephone screens etc.
Apply directly and evenly on surfaces (at least 50 mL / m²).
Use the product on clean surfaces.
Leave on for 5 minutes for bactericidal and virucidal** action, and 15 minutes for fungicidal action.

Effectiveness

Bactericide: *Staphylococcus aureus*, *Pseudomonas aeruginosa*, *Escherichia coli*, *Enterococcus hirae* according to standards EN 1276:2019 and EN 13697:2019 + A1:2019.
